## Crack Down on War Criminals

### Order 34 Japs Arrested For Prisoners' Massacre

From CP, AP and British UP Dispatches  
**HEADQUARTERS ALLIED ARMY OF OCCUPATION, TOKYO, Sept. 28.**—Cracking down on wanted Japanese war criminals General Douglas MacArthur today ordered the arrest of 34 officers and NCO's accused of the massacre of more than 100 Allied prisoners of war.

#### In Indo-China

##### Arrest Nippon Field Marshal

From CP, AP and British UP Dispatches  
**LONDON, Sept. 28.**—New Delhi radio, quoting dispatches from the United States, said that the arrest of Field Marshal Count Ichiro Teruchi, commander of Japan's southern army, had been effected by British troops in Saigon. The radio dispatch said that Teruchi had been arrested because it was suspected that the Japanese had a hand in fostering and promoting the latest Indo-China disorders.

Disorders broke out when Annamite natives made an attack on American army headquarters two days ago. Colonel Peter G. Smith, Major Herbert Blumel of the American army were attacked and Colonel Dewey was killed. The British managed to stave off the Japanese and report the occurrence, warning other Americans and Allied officers at headquarters in time for them to arm themselves.

#### IN JAPANESE PAY

The natives then attacked the headquarters but were driven off with the loss of six killed and six wounded. The natives then besieged the headquarters. James McGilkey, veteran British UP correspondent, and a companion, broke through the cordon and made their way to a nearby camp which was occupied by British ground troops and R.A.F. rescue party was organized and the British drove the natives, killing several in the encounter, and relieving the hand-picked garrison at American headquarters. According to information received here the Annamites were in Japanese pay and were armed with rifles and other weapons which the Japanese had been ordered to hand over when they surrendered.

#### Find No Solution

##### On Double Ration

**OTTAWA, Sept. 28.**—(CP)—Finance Minister Lloyd said yesterday in the Commons that the Prices Board has not yet been able to find a suitable solution to the problem of providing increased meat ration to certain classes of communities. He was replying to Solicitor Lord Credit, leader of the opposition, who said the rationing system was being changed to provide more equitable distribution of meat in southern Alberta where coal miners were striking on the grounds that they could not work properly on the recent ration. Mr. Lloyd said the miners were asking for a double meat ration. If the request was granted similar requests would pour in from all parts of Canada.

The situation in lumber camps was different. The camps were located in remote areas where general supplies of meat were not available. Rations in these camps were increased on a bulk basis, but not on an individual basis.

#### City Man Is Going To Business Meet

**MONTREAL, Sept. 28.**—(CP)—Canada's delegation to the post-war conference of businessmen from all parts of the Commonwealth was announced today by Harold Greaves, chairman of the executive committee of the Canadian Chamber of Commerce. Delegates include A. M. Macdonald of Edmonton.

##### House Adopts Throne Speech After Killing 2 Amendments

By PARRY O'DONNELL

**OTTAWA, Sept. 28.**—(CP)—The Commons last night adopted the address in reply to the Speech from the Throne without a recorded vote after rejecting two opposition amendments.  
Both amendments dealt with prices for agricultural products and were aimed at criticism of the government's wheat policy. A Progressive Conservative amendment seeking consideration

#### At Luscar Mine

##### Carry on Work To Get Bodies Of Five Miners

Efforts to recover the bodies of five of seven miners killed in an explosion at No. 1 mine at Luscar on May 12 last is continuing, Chief Mines Inspector John Crawford has stated.  
Mr. Crawford said that pumping operations to free mine workings of water, which has continued since shortly after the disaster, will likely be completed within the next two weeks.

#### MAY SOON REACH SPOT

After passages where the explosion occurred are dry it is expected that it will be soon possible to reach the spot where five of the victims were buried beneath tons of rock and coal.

#### Gardiner Says:

##### Ottawa Policy Brings About Parity Prices

**OTTAWA, Sept. 28.**—(CP)—Agricultural Minister Gardiner, attacking opposition amendments to the address in reply to the Speech from the Throne, said last night the government's agricultural policy had already brought about parity prices for farmers.  
Mr. Gardiner spoke after John Bracken, Progressive Conservative leader, had described the government's wheat policy as being designed to prevent the price of wheat from rising and to allow the members of his group to present initial price.

#### PREVENT INFLATION

Mr. Bracken was supporting an amendment by L. C. A. Ross (P.C.-Sask.) asking consideration for the establishment of agricultural prices at 90 per cent of the price paid by the government for wheat.

#### Farm Machinery

##### Ration Is Lifted

**OTTAWA, Sept. 28.**—(CP)—The Prices Board had good news for Canadian farmers today.  
It announced the lifting of all rationing on farm machinery and equipment including tractors but said dealers would continue to ration the number of orders from new accounts.

#### Curfew Imposed In Bombay Sector

**BOMBAY, India, Sept. 28.**—(CP)—The British government has imposed on the bazaar section of Bombay in an effort to halt communal violence which broke out last night.

#### Normandy Village Honoring Canada

**OTTAWA, Sept. 27.**—(CP)—The little village of Courseulles-sur-Mer in Normandy, where many Canadians fought and died in the invasion of France, has been named Gen. Crerar an honorary citizen of the village as an honor to Canada, defence headquarters said last night. The former commander of the Canadian Army has accepted the honor.

#### Prisoner 3 Years: Airman Builds Up Bankroll Of \$11,000

**CALGARY, Sept. 28.**—(CP)—Pit. L. Doug, Wilson, who spent three years in a German prison camp, returned to Canada last June to find that his back pay had been accumulated into \$11,000.  
Wilson, who was born in 1911, L. Wilson, was to use some of his savings to pay for a course in law at the University of Alberta and to establish a home. He was married a month ago to Mary Ann of Regina.

**Workers at Michel, Fernie Walk Out in Meat Protest**  
CALGARY, Sept. 28.—(CP)—Approximately 500 miners at Michel and Fernie, in the Crown's Nest Pass, this morning joined the work stoppage in protest against meat rationing. This brings the number of miners idle in Alberta and British Columbia to more than 5,000.

### Minister Says: Many Veterans Are Applying For North Land

A great number of applications are coming in from war veterans seeking land settlement in Alberta as work of clearing the first site in the Tanquet area, between Medicine Hat and Peace River, is scheduled to begin within one month, Hon. E. T. C. Tupper, Minister of Lands and Mines, stated Friday.

The government is making every effort to have the scheme functioning within the next few weeks, the minister said.

**PRELIMINARY WORK**  
Of the estimated 50,000 acres available for settlement, the first 10,000 in the Tanquet area, preliminary work of clearing will probably be completed by the end of the month, Mr. Tupper said.

A contracting firm, of Seattle, a contracting firm, will carry out the work of clearing the lands selected for settlement, with final inspections and approval to be given by a board of trustees, made up of Mr. Tupper, Hon. Bruce Macmillan, minister of agriculture, and a representative of Hartman Bros.

Under terms of settlement between the government and the veterans, the latter have over 33-1/2 per cent of his crop for seven years in payment. The contracting firm receives 30 per cent of the crop for the first year, and then 25 per cent for the remaining 24 years to cover administration costs. The contractors may farm surplus cleared lands not desired by veterans.

At the end of 10 years the veterans receive clear title to the land.

**MEAT RATIONING**  
The three men were charged with aiding the enemy while prisoners of war. John Gordon Galahar, 34, of Windsor, Ont., was sentenced to penal servitude for life.

Pte. Edwin Barnard, 26, of Riverton, Ont., was sentenced to 25 years in prison.

Pte. George Hale, 34, of Vassar, Mich., formerly of Windsor, Ont., was sentenced to 10 years in prison.

**SAME AS TREASON**  
Courts martial on these three soldiers—all former members of the Royal Canadian Mounted Police—were taken prisoner during the Battle of Britain before taking up their post in August and early in September.

The charges of voluntarily aiding the enemy while a prisoner of war were laid under section four of the Army Act and are equivalent to charges of treason.

The maximum penalty which could be imposed is death.

**Honor Alexander On Leaving Italy**  
ROME, Sept. 28.—(Reuters)—Field Marshal Alexander, Allied supreme commander in the Mediterranean theatre, who is leaving Italy on Sunday for a short holiday in Britain before taking up his post as Governor-General of Canada, was guest of honor at a farewell banquet at Caserta near Naples last night.

**Sudden Lifting of Controls Seen as Road to Disaster**  
VANCOUVER, Sept. 28.—(CP)—Donald Gordon, chairman of the Prices Board, said in an address today that the Canadian economy faces peace-time tasks as big as those it faced in war and warned that any ill-timed lifting of controls would put the Dominion in the grip of a disastrous inflation and subsequent collapse.

Speaking before a combined board of trade and Canadian Club luncheon meeting, Mr. Gordon said the war-generated inflationary pressure, the cost of living had been held down better in Canada than in any country in the world. But nothing could be

more than an assumption that the end of active hostilities meant all wartime controls be immediately lifted.

The Prices Board chairman said the end of the war had brought a new era of peace and prosperity. He said the government was determined to maintain the stability of the Canadian economy and to ensure that the benefits of peace were shared by all Canadians.

#### Vote of Union

##### Meat Dealers In Rural Areas To Stay Closed

Undimmed by reports that certain meat retailers had refused to accept business elsewhere the Central Alberta Butcher Union held Thursday night a meeting in Carleton Place and was attended by 25 of the members of which the large rural area is comprised.

The meeting was called with a view to extending and solidifying organization throughout the business community in the area.

**NO SOLUTION YET**  
In the Commons last night, Finance Minister Lloyd said no solution had been found for the problem of meat rationing.

## Gets Six-Week Term—And He's Happy About It

CALGARY, Sept. 28.—(CP)—A sentence of six weeks in jail was imposed on Joseph Gaston in the court yesterday, and he was happy about it.

Gaston, who was in the hall, stopped and he offered to sell him a bottle of rum for \$10 to a comrade of the late MP.

Constable W. F. G. Perry of the RCMP told the court he was leaving his office at 4 p.m. Wednesday, dressed in civilian clothes. Gaston, who was in the hall, stopped and he offered to sell him a bottle of rum for \$10 to a comrade of the late MP.

He told me he was a deserter from the army for about a half year and thought he could avoid the military authorities by being sent to jail, said the constable.

## Nazi Prisoners

## Shun Democracy

OTTAWA, Sept. 28.—(CP)—Reaction to restrictions against prisoner-of-war camp press visits resulted in the decision that approximately 38,000 prisoners had been released in relatively few countries.

An internment operations officer at detention headquarters described the prisoners by varying degrees of Nazi and were segregated in black, gray and white camps.

He commented that it was significant that despite the restrictions placed on the prisoners, they were still in the camps—only one of a score of men of camp scattered throughout Canada bore the "white" designation which means that the prisoners of this camp have accepted the restrictions of democratic principles.

The great majority are still in gray and black camps and while some of them will still be in that state of mind when we ship them home," the official added.

## Order Arrest 34 Japanese For Massacre

Continued from Page One

The arresting order went out to the American Eighth Army, but it was not clear immediately whether the wanted men were in Japan or still in the Philippines. Some units of the Eighth have just moved from the Philippines into southern Japan.

## DENOUNCES SCHEME

French Foreign Minister Georges Bidault denounced the Soviet argument and insisted that the Yalta agreement guaranteed France her place in all European peace negotiations.

It was understood that Molotov intends to leave London tonight, but even the ministers appeared that their first session would be a scolding of the Soviet argument and insisted that the Yalta agreement guaranteed France her place in all European peace negotiations.

## BREAK UP ARMY

General MacArthur also announced today that the American Tenth Army, commanded by Lieutenant General Joseph "Vinegar" Joe Stilwell would shortly be broken up and that three veteran Pacific combat divisions would embark for the United States within three weeks.

Such a demand, it was pointed out, obviously would fit in with Russia's historic effort to gain access to the sea. It would free the Pacific theatre of war would be available in that period.

At the same time, the Allied Supreme Commander refused the request of the Japanese government for 20,000 tons of shipping for the repatriation of Japanese soldiers from territory the Japanese claimed as theirs.

There was, however, apparently no direct connection between the denial of shipping to the Japanese and the demand for a maximum use of force to transfer of Japanese troops home would increase from 120,000 tons in October to 200,000 in April.

## PERIODICAL REVIEWS

The Japanese Commander told the Japanese to make a periodical review of civilian requirements and that of military needs. A passenger craft would be authorized only when vessels had no stores of food to spare.

All Japanese personnel who American personnel would be available through lowering of the Japanese embargo on shipping of goods to Japan, February and March.

Gen. MacArthur earlier today forbade reopening of the Japanese black exchange, but permitted the reopening of factories to manufacture some goods in limited quantities.

## HALSEY GETS A HORSE... BUT NOT HIROHITO

Unable to fulfill his oft-repeated desire to ride Emperor Hirohito's white horse through the streets of Tokyo, because the steed was designated as private property, Adm. William F. Halsey sits in the saddle on a horse supplied by war correspondents. Photo was taken on the grounds of Meiji Shrine in the Japanese capital. Maj. Gen. William C. Chase, commander of First Cavalry Division, looks on.

## Sudden Lifting Of Controls Sled Road to Collapse

Continued from Page One

Immense new problems abroad and at home are being created by the sudden lifting of controls, because the sled road to collapse.

One Allied directive gave the Imperial Government permission to produce textiles, certain metals, leather goods and trucks, and to restrict raw rubber under specific restrictions laid down previously.

On the agricultural front, the Allied headquarters had approved the use of the airfields for farming to help alleviate food shortages.

REPERCUSSION OF VISIT

One repercussion of Emperor Hirohito's visit to General MacArthur yesterday came today when Japanese police halted the sale of a Tokyo newspaper carrying a large photograph of Gen. MacArthur and Emperor Hirohito standing together.

The Japanese Home Office censorship department said the edition was banned because the photograph was a "suspicious print." Early editions of tomorrow's Mainichi destined for outlying districts carry the same photograph, taken by the U.S. Army Signal Corps, as a five-column cut.

The censorship department said it was a "suspicious print" because it showed the emperor and the general standing together, and that the emperor was wearing a military uniform.

The MacArthur-Hirohito picture appeared the only material in the newspaper—the Tokyo Shimbun—which the Japanese government might have considered objectionable.

## Ottawa Policy Brings About Parity Prices

fluctuations tendencies. With the exception of eggs, all farm products now were selling above parity prices.

"If you want to vote for 100 per cent parity prices all you have to do is to vote for the policies of the government," he said.

Opposition to the Progressive Conservative and CCF amendments meant support for parity prices as already established by legislation and for long-term agreements with stabilized prices.

Reformer Mr. Bracken, M. J. Caldwell, CCF leader, said the CCF amendment was proposed because members of that party did not like the Progressive Conservative amendment. If, however, the CCF amendment was not adopted CCF members would support the Progressive Conservative amendment since it offered something better than the government's policy.

**DOLLAR FLOOR**

The floor price either meant something or it didn't, said Mr. Bracken. If it meant anything it was clear the government contemplated that wheat might fall to \$1 a bushel in the next five years.

A price at 90 per cent of parity would be \$1.25 cents a bushel, above the present initial price of \$1.25.

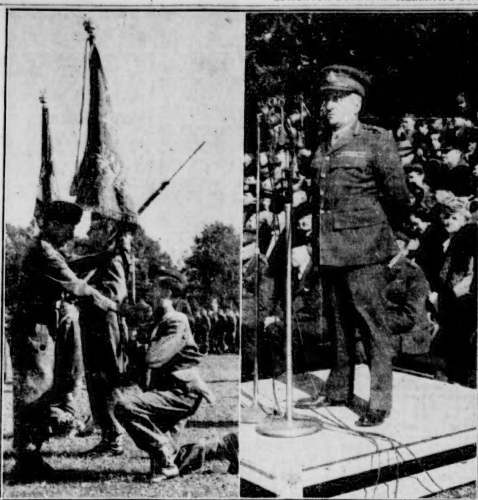

"This country can't face the possibility of wheat dropping to \$1 a bushel in the next five years, a drop of a third," said Mr. Bracken.

If prices of all farm products dropped a third, he asked, where was Canada to get a "high national income"? Where the government proposed a floor price of 62 per cent of parity, the opposition said it should be at least 90 per cent.

"If the government policy asks the wheat growers of Canada to assume a burden which the nation should bear," said Mr. Bracken, "now in a free market prices would normally go up. This puts a ceiling on them."

**NO TAX CHANCES**

enough taxes to pay the charges it had assumed.

The government announcement said there was "a moral obligation not to take advantage of Canada's allies in the post-war adjustment period."

"A moral obligation on whom?" asked Mr. Bracken. "On 200,000 farmers on this nation?"

Turning to the CCF amendment,

Mr. Bracken said it meant a price of \$1.25 per bushel. Yet a few days before Mr. Wright had said a price of \$1.25 per bushel would give the average farmer a reasonable return for his labor and investment.

The government policy was satisfactory because it would not give a satisfactory deal to wheat growers when the parity price was \$1.42. It would not enable farmers to buy the products of industry.

fact that today is Friday, a fish day, so that many housewives weren't interested in meat in making their purchases.

Agreement by Mr. Chartrand at 2 a.m. to advise the strikers to return to work this morning came as the culmination of negotiations instituted by the Food Distributors Association.

Scheduled departure of a delegation representing the strikers for Ottawa today was postponed until Monday. ### OTHER REQUESTS

Other recommendations will include discontinuance of the use of tokens, increase in coupon values for cuts from the front part of the carcass and the flanks, and removal of smoked, fresh and liver sausage, Bologna, head-cheese, cretons and all jellied meats from the rationed list.

From the waterfront came reports that approximately 150 Canadian Pacific and 100 Canadian National freight handlers were at work. In shed seven five gangs of longshoremen, totaling approximately 50 men, were working. Others reporting were asked to return at one o'clock when it was expected there would be enough men to make up complete gangs.

All grain elevators in the waterfront area were back in operation. Representatives of the federal labor department, Prices Board, National Harbors Board and Longshoremen's Union were scheduled to meet this morning to discuss and search any cases they thought contained merits.

### POLICEMAN HURT

Decision to end the strike followed a day in which rioting marked efforts of the strikers to effect a complete shutdown of Montreal meat shops, resulting in arrest of 75 persons and serious injury to one member of the city police force.

Yesterday's open riding and hand-to-hand fighting, especially the melee which occurred where strikers attempted to enter the T. Eaton Company department store on St. Catherine street, constituted the most serious development since the strike began Monday.

The generally improved situation was given another boost with the announcement that Police Sergeant

Laurent Boudet, 33, was showing some improvement in hospital, after suffering a fractured skull in a police-longshoremen clash on upper St. Catherine street yesterday afternoon. Doctors, who had first feared that Sgt. Boudet would die today that he had a good chance of recovery.

### Say Arms Found On Dutch Vessels

SAN FRANCISCO, Sept. 28. (AP)—Melbourne radio last night quoted Prime Minister Chifley as telling the Australian House of Representatives at Canberra that arms and ammunition have been found on some Dutch merchant ships being loaded in Australian ports for shipment to Java. NIK monitored the broadcast. Waterline workers in Sydney, Melbourne and Brisbane have refused to load Dutch ships, contending they were suspected of carrying arms to be used against an Indonesian republican movement. Dutch authorities in Sydney said they had given wharf laborers permission to open and search any cases they thought contained arms.

## Demands Canada

### On Labor Board

PARIS, Sept. 28.—(CPI)—A plea for Canada on the executive committee of the projected world trade union federation was demanded yesterday by Patrick Conroy of Ottawa.

The secretary of the Canadian Congress of Labor told delegates to the World Trade Union Congress that Canada by her part in the war had helped bring victory "without which we would never be able to have this conference or this federation here or anywhere else."

Canada, he said, was a source of inspiration—source of power at the atom bomb.

"No nation has the right to multiple representation on the executive committee," he declared. "Canada deserves a place there."

"The big powers have had stewardship of world affairs in their hands for a long time—the world as it is today is the result."

## "Definite" Rumor

### Report Big Airlines in U.S. Seek CPR 'Feeder' Network

By CHESTER BLOOM  
Edmonton Bulletin Ottawa Bureau

OTTAWA, Sept. 28.—A rumor that big American air line companies have approached the Canadian Pacific Railway to acquire ownership of its feeder air lines which virtually blanket air routes in central, western and northwest Canada, is having wide circulation in Ottawa.

Air transport board officials deny that any suggestion of this kind has been put before them officially or unofficially.

The report, however, is coupled with the very definite rumor that the government is considering establishing a crown air lines company, separate from Trans Canada Air Lines, to take over the private feeder lines, most of which are operated at a loss.

#### BOARD HAS POWERS

Air transport board officials say that any attempt by American air lines companies to acquire ownership of the feeder and pioneer northern air lines could only succeed with approval of the Canadian government. The air transport board itself is vested with full power to investigate and approve or veto any such move.

A clause in the act establishing the air transport board provides that no transfer, merger or lease of any Canadian air line can be negotiated except through written application to the board. There has been no suggestion so far that such an application may be made.

The report that American air lines may endeavor in this way to obtain Canadian air lines is undoubtedly arises from the statement by Hon. C. D. Howe, minister of reconstruction and munitions at the time the statement was made March 17, 1941, that the government will direct railway companies of ownership of air lines within a year after the war is over.

#### ORIGINAL PROPOSAL

This statement was predicted on the theory that the feeder and pioneer northern lines should be operated by small independent companies, giving returned airman a chance to become such operators.

In the interim, however, the Canadian Pacific Railway has acquired stock control or ownership of virtually all such feeder and pioneer air lines.

These lines are largely operating at a loss, and, if any, returned airman have the financial resources to operate them with a view to future business, the situation holds down to whether the big private railway company shall be permitted to continue to operate them or whether the government shall take them over.

Since there seems to be some division of public opinion in Canada on the subject of government or private ownership of such feeder air lines, Canadian advocates of private ownership air line competition might be willing to see American capital take the risk rather than the government if the Canadian Pacific Railway company is divided of feeder line ownership. There is no doubt that many of the big, wealthy and powerful U.S. air line companies would welcome the opportunity.

#### MANY APPLICATIONS

At present, there are 35 applications from American air line companies for operating routes in Canada. As a result of the agreement made last February in New York between representatives of Canada and the United States, commercial air lines will operate between Canada and the United States on the basis of two United States lines to one Canadian.

By this arrangement, Canadian lines can operate eight services to eight U.S. cities and the U.S. line can operate ten lines to ten Canadian cities but may operate more than one service into three of such Canadian cities. But each line can serve only one city in the respective countries.

Most of the existing services are contained under this arrangement but numerous routes have yet to be considered.

Several of the big American companies are pressing hard to acquire operating routes through northwest Canada with a view to extending them on to a round the great circle to the Far East.

#### AMBITIONS STYMIED

Formerly, however, their ambitions seem to be stymied by the fact that this main route runs generally speaking from Chicago to Winnipeg to Edmonton and thence northwest, either through Prince George, B.C., or Grande Prairie, Alberta, to Whitehorse and Dawson City. The Trans Canada Airways has already asked its claim of a trunk route northwest from Winnipeg to Edmonton.

The Canadian Pacific feeder lines blanket the remainder of the north-west route. It is the latter argument that the American air lines are especially interested in, if they can gain entry, through the New York agreement, from one point in the United States to Edmonton either than via Winnipeg, and acquire an operating route northwest from Edmonton via any of the routes now held by the Canadian Pacific Railway, their quest for a route to Asia would be solved.

#### B.C. Government Will Check Movies

VICTORIA, Sept. 28.—(CPI)—

Although he has received no request from the Vancouver city council and police commission as yet, Attorney-General R. E. Macdonald said yesterday he will take action to review the censorship of films that the Vancouver office official find offensive. The two Vancouver city bodies had charged that crime movies were influencing juvenile crime in Vancouver.

#### MOTHER SAW MURDER

Doreen was shot before the horrified eyes of her mother, Mrs. Thomas Ryan, and her sister, 15-year-old Phyllis. Mrs. Ryan said she found the child lying in a pool of blood on the floor in the front-room. The man was standing over her with a rifle. The mother said she tried to get the gun from him but he threw her aside and fired two shots into his head.

British Columbia police officers said there was no apparent motive for the killing.

The tragedy is the third in a series of child slayings, which broke out three weeks ago on the lower mainland.

CURLING on artificial ice in the Granite Club's rink by November 1, as predicted some weeks ago by the committee in charge, may have appeared overly optimistic at the time, but present indications are the members will be pushing rocks around on the date called for in the construction schedule.

Actual installation of the piping and machinery is expected to commence on October 1, and it is anticipated the work will be completed within 15 days after that.

The excavating under the waiting room space to house the machinery is already done and the concrete work for the rink finished. It is expected the concrete for the walls will be poured this tomorrow, or Monday, and the rink will be in position ready to commence laying.

Very little difficulty has been encountered in financing the first project of its kind in Edmonton. According to Bert Robertson, chairman of the committee, and only a few shares are still available. ANNUAL meeting to reorganize the Edmonton Men's Basketball League will be held next week, possibly Wednesday or Thursday afternoon, at the Granite Club. President Clare H. Ingwersen.

The Alberta Association meeting is planned for September 26, the Thanksgiving weekend, and the proposed split-up in Edmonton will have been decided by then. The Edmonton basketball enthusiasts are now back in civies and doubtless many will be anxious to participate in the same sport the coming winter, thus making league prospects considerably brighter.

## Chicago Stops Reds Twice; Cards Beaten 5-2 by Pirates

### Reds Lead Only Single Win to Clinch Flag

#### Grimm Men

#### Take 19th Twin Bill

#### CINCINNATI, Sept. 28.

(AP)—Following their usual procedure whenever Chicago Cubs come to town, the Reds rolled over and played dead Thursday and the Cubs climbed over them twice and a record-breaking spree that brought Jolly Cholly Grimm's Cubs within one victory of the National League pennant.

Rolling along on Hank Wynn's classy three-hit curving and the eighth pitching of Paul Dehner's Cubs closed the rocky Reds 2-1 and 7-4 in Thursday's twin with and now need a combination of only one more win themselves and or one St. Louis Cardinals win to tie the pennant at Wrigley Field.

On the way they tied one record and broke another after their two games gave the Cubs a mark of 21 victories against the Reds in 27 matchups, campaigning against the Reds to tie the mark set last by the Cubs in 1920 against the Yankees of 27 against the Yankees.

The Cubs' victories were marred by an accident to second baseman Jimmie Johnston in the third inning of the opener, when the Reds scored their only run. Making a desperate dive for a hit from J. LaMotta, Johnston crashed into the outfield fence, heavily into the infield dirt. Helped from the field, he was taken to a hospital, but was expected to be released by his club in a few days.

Although the injury was not believed to be severe, there was no word of his return to the field. Johnston and sacker would be available for any of the Cubs' three remaining games here on Wednesday and Thursday.

A mere 4,400 customers—2,378 of them paid—filled the stadium for the first game, which was a doubleheader Saturday night.

## First Round at Portland Hogan Shatters Par by Seven

### Cardinals Boast Best Infield of Series Contenders

#### PORTLAND, Ore., Sept. 28.

(AP)—Hogan of the Cardinals, who led the team in batting average, broke a seven-run homer in the first inning of the first round of the National League playoffs at Portland on Monday.

Hogan, recently out of the Portland club course and a field of star players as he put together his team.

Starnes' manager, defending champion in a one-inning par 3 to stay within striking distance in the series.

Four strokes behind Hogan were Harold Judd, McQuinn, Sam Rice, Ray Anderson and Harry Bausler, but from Los Angeles, New York, Boston, Chicago, Cleveland and St. Louis to lead him in the \$14,000 tournament.

Byron Nelson of Toledo, O., big money winner of all time and first man to win 17 tournaments this year, went one over par on the last two holes but overcame his game sufficiently to hang up 23-20 for a tie with Sam.

Former Australian open champion, Jim Fennell, won a U.S. Amateur, and a U.S. Open, and finished with eight over 72.

Protesters, equal credit is due Hogan for his feat. Hogan's team, which included the Cardinals, won the first round of the series.

The Cardinals have a glacial pace of play, but they are not making too many errors.

The Tigers, to put it mildly, have a very good team. They are not making too many errors.

## Named to Pitch Trucks to Rejoin Detroit In St. Louis on Saturday

### Occ of 1945 Eastern Lacrosse Champs

#### DETROIT, Sept. 28.

(AP)—Virgil Trucks and Hal Newhouse, in that order, were the Detroit Tigers' pitching men for a two-game weekend series at St. Louis following word from Trucks that the 26-year-old right-hander had received his Navy discharge at Norman, Okla., and was enroute to rejoin the club for which he pitched 30 victories in 1942 and 1943.

Manager Steve O'Neill said Trucks informed him he would be in St. Louis Saturday "ready to work." Whether the star hurler of Great Lakes blue-jacket line of 1941 actually would pitch, depended upon his condition.

The welcome relief came to the Tiger mound crew, however, gave O'Neill an opportunity to hold Hal Newhouse, Detroit's left-hander, until the Sunday windup if the Tigers don't clinch the American League pennant by winning Saturday.

"Although Hal has beaten the Browns six times already this season, we won't call on him until Sunday, if necessary," O'Neill said. He needs his three days' rest and he's going to get it, he said.

With single games against the Browns Saturday and Sunday, Detroit must win in the two-game series to clinch the pennant.

## Alberta Offers Debt-Free Land For Veterans

The Alberta government is determined that the men who served Canada on the war fronts will not commence rehabilitation until they are free of the heavy burden of debt hanging over their heads. Mr. A. T. Tanner, minister of lands and mines said in an address to members of the East Edmonton Associated Social Credit group, Thursday night.

Mr. Tanner was speaking in response to an invitation from the Social Credit group, who suggested he discuss them on some phase of departmental function.

"In the government of Alberta I am closely associated with the federal government on the general terms of the Veterans' Land Act because we are in this program, and the speaker felt that it was a program of which we may well be proud and which leads the entire Dominion."

### BEST IN DOMINION

Following negotiations with the Dominion government, Alberta has been successful in securing certain features applied to the working of the act in this province, and the speaker felt that it was a program of which we may well be proud and which leads the entire Dominion."

"We all, not only as governments, but as individuals, share the responsibility to see that the rehabilitation home is cleared, on their feet again. We must all realize that war has changed these men, a change for the better, but they are not in the slightest way responsible," Mr. Tanner declared.

The Dominion government had agreed that a cash grant of \$2,000 be paid every soldier on half rations but this money is not available to every veteran who carries out the terms of the act.

The Alberta government has two or three separate plans for veteran land settlers in order to provide proper variety, he explained.

### THREE YEARS FREE

If a man settles in an agricultural land he pays no rent for three years and then for the next three years he pays only one-third of the rent.

The Alberta government has two or three separate plans for veteran land settlers in order to provide proper variety, he explained.

No cash is paid but the construction takes 36 per cent of the cost for three years and then for the next three years he pays only one-third of the rent.

Mr. Tanner said that in southern Alberta an agreement is being worked out that will make available to the veterans a large tract of land in the area.

SCHOOL LANDS

School lands are also being made available in various ways through a scheme of exchange of school lands for recreational lands. In this way the school lands are cleared, on their feet again.

The minister concluded by saying that advice and criticism from war veterans members of the Legislative Assembly had been taken into account for every step taken by the Alberta government in carrying out the program for land settlement in this province.

The Rev. J. W. Williams was chairman and speaker of the evening of the group will be held in the Social Credit Hall on the evening of Oct. 28.

able to offer more valuable advice than an amateur could.

These committees should be selected so as to contain representatives of every organization in the community—churches, fraternal organizations, service clubs, boards of trade, as well as civil officials and businessmen. They should also include representatives of women's organizations whose assistance will be especially valuable in helping girls who are returning from the services and the burden of service men.

They should see that the work is carried around as much as possible, but should be handled so as to be a constructive control which will see that all those who have been allotted jobs carry them out.

## Chest Campaign Is Still Far Off Goal of \$100,000

There is still a long way to go before the Community Chest committee can meet its \$100,000 objective, and there are only a few hours left in which to cover that distance, figures released Friday by Reg. T. Ross of the Chamber of Commerce reveal.

Total collections Thursday night were \$20,714 from 1,212 contributions. The breakdown of the figures shows that the industrial and commercial divisions have contributed \$53,300 of that total with \$23,000 of the total from 1,212 contributions.

F. S. GRISDALE

## Official Quiet on Meat Rationing

Changes in meat rationing regulations are questions for the government to decide and undoubtedly minor changes will be made where it is found necessary, F. S. Grisdale, Ottawa, deputy coordinator of primary products and administrator of meat products, stated on his arrival here in the course of a survey of conditions in Western Canada.

Mr. Grisdale is continuing regional offices of the Wartime Price and Trade Board, and also will confer with executive officers of provincial departments of agriculture.

He said that he had found that the majority of the people were supporting meat rationing. They were aware of the situation in the light of the overall shortage of meat supplies.

## North Steamship Said Re-Floated

Advices received from Yellowknife, N.W.T., here Friday said the Hudson's Bay Company steamship Distributor, aground in the west shore of Great Slave Lake since last week, now is proceeding to Fort Smith, N.W.T., "under her own power." The reports did not say whether the steamer was carrying her 800 tons of freight for Nunavut, N.W.T., and intermedial points.

The Distributor was lashed by a gale and driven aground Sept. 20. It carried a normal crew of about 10 men and five passengers, all company employees, bound for northern points.
